

## Basic IFR Flying

Join us for a review of Basic IFR flying. We'll review proper techniques on how to control the aircraft using basic attitude+power settings. Then, using these basic skills, learn how to use navigational equipment in the IFR world.

**Directions:** By air: American Flyers is located on the east side of the Addison airport on taxiway Tango.  
By car: we are located one block north of the Keller Springs and Addison Road intersection. Approximately 1 mile west of The North Dallas Toll Road

### A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
